

The demand for computer knowledge of the present day is motivating the youth to build their career in computers. Completion of the computer degree helps the aspirants to get jobs in foreign countries.

### **List of Computer Courses:**

- Microsoft Office
- Office Automation
- Accounting Software
- Web Designing
- Computer Science Introduction
- Mobile App Development
- Programming Fundamentals
- Data Structures and Algorithms
- Web Development
- Object-Oriented Programming
- Computer Hardware Courses
- Hacking Courses
- Database Management
- Artificial Intelligence (AI)
- Software Engineering
- Computer Graphics
- Machine Learning
- Deep Learning
- Network Administration
- Natural Language Processing (NLP)
- Cyber Security
- Internet of Things (IoT)
- Cloud Computing
- Big Data and Analytics
- User Interface (UI) Design
- Game Development
- User Experience (UX) Design
- Computer Hardware and Maintenance
- Operating System
- Ethical Hacking
- Linux Administration
- Digital Forensics
- Cryptography
- Robotics
- Virtual Reality (VR) Development
- Augmented Reality (AR) Development
- Data Science
- Quantum Computing
- Blockchain Technology
- Embedded Systems
- Computer-Aided Design (CAD)
- Compiler Design
- Information Systems Management
- Project Management for IT

- Data Mining
- Speech Recognition
- IT Service Management (ITSM)
- Computational Biology
- Bioinformatics
- Geographical Information System (GIS)
- Human-Computer Interaction (HCI)
- Multimedia Design and Development
- Wireless and Mobile Networking
- Computer Architecture
- Software Testing and Quality Assurance
- Quantum Programming
- C language
- C ++
- Java
- Unix
- Linux
- Python
- Dot Net
- Embedded Linux development
- DevOps
- Data Warehousing
- NoSQL Database
- Information Retrieval
- Human-Robot Interaction
- Computational Linguistics
- Agile Software Development
- Parallel and distributed computing
- Bioinformatics Algorithms
- Web Analytics
- 3D Modeling and Animation
- FPGA Programming
- Data Visualization
- Secure Coding Practices
- Microservices Architecture
- Natural Language Understanding (NLU)
- Data Privacy and Protection
- Social Media Marketing
- Network Protocols
- Reverse Engineering
- Multimedia Systems
- Real-Time systems
- E-Commerce Technologies
- Web Accessibility
- IT Risk Management
- HTML and CSS
- Java Script
- Front-End Web Development
- Back-End Web Development
- Unity Game Development

- Object-Oriented Programming
- SQL Programming
- Computer Vision
- Digital Marketing
- Social Media Marketing
- Search Engine Optimization (SEO)
- Content Marketing
- Virtual Reality Development
- 3D Modeling and Animation
- Human-Computer Interaction (HCI)
- Reverse Engineering
- Wireless and Mobile Networking
- Bioinformatics tools and resources
- Cloud-Native Application Development
- Computer Arithmetic
- Wearable Technology Development
- Functional Programming
